

## SMA Winter Weather Reminders:

Recess - SMA guidelines for recess state: students will be outside for recess throughout the school year unless it is raining or snowing. Indoor recess will be substituted on rainy/snowy days or when the actual outside temperature or wind chill is below 10° F. Students will be outside for a limited time when the actual outside temperature or wind chill temperature is between 10 and 19 degrees.

Students need to be coming to school with the proper clothing as we will go out to get exercise and fresh air in the winter months. Coats, hats, gloves, etc.

School Closure - SMA uses the Johnson County Catholic School Principal Association recommendation when closing school for inclement weather. When the roads become unsafe or temps drop to life threatening levels schools will most likely close. Decisions will be reached by 6pm the night prior and prior to 6am the day of possible closure.

The decision will be sent via email and text. It will also be put on the SMA social media platform. No Arch School will be listed on the news channels.
